This Year

Sit back and watch your garden grow!

***No* stooping—*No* bending. *No* backaches or blisters!**

Here's a new gardening system devised *and field-tested* by an 80-year-old gardener (*who found gardening too physically demanding*) and a professor (*who lacked a lot of time*).

Learn how you can harvest *more* vegetables without increasing the size of your garden or the amount of fertilizer and water you put into it! And, discover how digging robs your soil of organic matter. It all adds up to less effort for more results!

☐ **YES!** Please send me a copy of NO-DIG, NO-WEED GARDENING. If I like the book, I'll pay for it in **three easy installments of $5.98 ($7.32 in Canada)** plus postage and handling. If not completely satisfied, I'll return the book along with the invoice marked "cancel" within 15 days and *owe nothing*!

☐ **SAVE CASH!** Enclose your $17.95 payment ($21.95 in Canada) and we'll pay postage and handling. If not completely satisfied, simply return the book within 15 days and we'll send you a *full refund.* 13-09
